5) **Screen Reading:** Since the beginning of the college, not a single blind student had been admitted and therefore, the facility of Screen Reading is not made available

S. B. Khade Mahavidyalaya takes pride in the fact that apart from preparing a sound academic foundation of the student community; the college constantly works upon to develop them as better citizens of the country. In this regard, the college, apart from imparting professional education, inculcates a feeling of oneness among the student community through various practices and programmes.

Our Institute has been sensitizing the students and the employees of the institution to the constitutional obligations about values, rights, duties, and responsibilities of citizens which enable them to live respectfully as a responsible citizen. To equip students with the knowledge, skill, and values that are necessary for sustaining one's balance between a livelihood and life by providing an effective, supportive, safe, accessible, and affordable learning environment. These elements are inculcated in the value system of the college community. The students are encouraged by participating in various programs on culture, traditions, values, duties, and responsibilities by inviting prominent people. The institute conducted awareness programs on the ban on plastics, cleanliness, Swachh Bharat, etc. The college establishes policies that reflect core values. Code of conduct is prepared for students and support staff and everyone should abide by the conduct rules. The affiliating University curriculum is framed with mandatory courses like Professional ethics and human values, Constitution of India, Essence of Indian Traditional Knowledge, as a small step to inculcate constitutional obligations among the students.

Men and Women in today's society work together on all fronts. Women are today at the forefront in Politics, Business as well as Social domains. Yet women and students of all genders have to suffer sexual harassment. Any form of sexual harassment is against the basic human right of freedom and right to live. Every individual deserves a workplace which is safe and secure. Also basic respect is expected at any workplace by every individual. Government of India promulgated The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 on 9th December 2013 which superseded Apex Court's Vishakha Guidelines of 1997. The Act lay down a grievance redressal mechanism that mandates all educational institutions set up an Internal Complaints Committee (ICC) to look into such complaints. UGC has also recently enacted University Grants Commission (Prevention, Prohibition and Redressal of sexual harassment of women employees and students in Higher Educational Institutions) Regulation, 2015 on 2nd May 2016. The ICC should know and be aware of the rights so that the aggrieved person gets prompt justice.

Through Maharashtra State Commission for Women, such a training has been proposed to create awareness in all Universities in Maharashtra. All ICCs will be covered under this. It is important that all critical stakeholders which includes officers, administrators, lecturers, professors are also involved in this process.

Also MSCW is publishing 2 books in which the grievance redressal mechanism and various aspects which ICCs / Universities needs to bear in mind is covered. The entire objective is to ensure a safe and healthy working environment for women and students. I am sure this book will definitely come in handy for you to understand and further educate concerned stakeholders.

7.2.1: Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

1. **Title of the Practice:** “Expansion and Extension of Higher Education”.

2. **Objectives of the Practice:** One of the objectives of our college is “Expansion and extension of higher education among the students, especially girls of the weaker section of the rural society in the area of Karvir, Panhala, and Gaganavada Talukas

3. **The Context:** The College was established with the noble aim of disseminating higher education to the students in general and the girl students in particular. Earlier there was no higher education facility available in the hilly and remote area. The boy students who could afford higher education used to go to Kolhapur city. The girls had from opportunity as their parents would marry them off. Thus a large population of girl students was deprived of taking higher education. So the founders of the Sanstha and the then trustees established this college with a fixed and particular objective in their mind and it was educating girls.

4. **The Practice:** To fulfil this objective, the members of faculty and staff try their level best since the beginning of the college. After the declaration of HSC results, they personally visit the adjoining Junior colleges in order to collect the list of the pass students. Then the members of the faculty make their village-wise and faculty-wise lists and dividing themselves among the groups, plan door-to-door visit schedule. By visiting the wards and their parents, they request them to seek admission in the college. They provide college prospectus and inform them about the available courses in the college. Through this interaction, inputs regarding the courses, co-curricular, extra-curricular activities as well as various facilities are given to the prospective students and their parents. A special emphasis is given for the admission of the girl students. Many of the girl students do not afford the higher education since they belong to the poor agrarian families. So with a view to bring those into the current of higher education, the authorities provide them free-ships, concession in admission fees, examination fees, book-bank facility, money for commuting to college etc. Special short term courses are organized that offer the girl students an opportunity to join them and develop their inherent skills e.g. Fashion Designing Course, Mehendi Painting Course, Modern Cookery Course, Making Paper and Clothes Bag Course, Photography Skill Course, Modi Lipi Course, Outreach Programmes etc

5. **Evidence of Success:** As a result, the admission of the girl students to boy students is outnumbering each year. In the year 2021-22, there were 315 boy students and 566 Girls students out of the total number 881 students. In the year 2022-23, there are 350 boy students and 516 Girls students out of the total number 866 students.

6. **Problems Encountered and Resources Required:** While fulfilling the objectives of bringing the girls students in the current of higher education, the college faced many problems like persuading the parents to send their wards to the college, the problem of commuting, the problem of teaching learning kits, the problem of poverty etc. However, the members of the faculty arranged door visits to the students. They convinced their parents about the importance of higher education. The college contacted the state transport authorities, helped to open concession pass distribution office in the college premises and requested them to arrange buses during the college time. The college provided book bank facilities to the poor and needy students. Some of our members of faculty offered monetary help to the students for buying textbooks, paying examination fess etc.

Best Practices No: 2

1. Title of the Practice: "Carrying out Online Teaching-Learning Activity"

2. Objectives of the Practice: To engage students and the teachers in the online teaching-learning activity during the Academic year 2022-23.

3. The Context: To get more benefit to the students we use offline classes as well as online teaching also. The college decided to carry out teaching-learning activity through online mode using mobile apps like Zoom, Google Meet, and Google Classroom etc. The college tried its level best to keep the teaching-learning activity on track and keep the students engaged in the channel of education.

4. The Practice: The classroom-wise groups were formed and a copy of time table was sent to them. The teachers engaged their class in their given time slots. The teachers gave online notes, PDF'S of textbooks. They conducted offline as well as online evaluation tests and monitored their responses. They attended queries of the students and gave them exercises.

5. Evidence of Success: In the initial stage the teacher and the students found it very difficult to get used to the online mode. However, both the teachers and the students learnt to communicate through online mode. The students attended online workshops and seminars.

6. Problems Encountered and Resources Required: However, they faced many problems like shortage of electricity, range and payment for internet recharges etc. For the smooth conduction of the online teaching-learning activity, the college has to make provision of uninterrupted supply of electricity. Then there is problem of range in hilly and remote areas in which the students reside.
